

Technical Data Sheet

Poly Ethylene Glycol-7-Glyceryl Cocoate

Row	Parameter	Result
1	Appearance in 25°C	Clear liquid
2	Saponification value (mgKOH/g)	90 - 105
3	acid value (mgKOH/g)	Max 5
4	Iodine value	Max5
5	Dioxane	Max 5
6	Color (Hazen)	Max 200
7	Moisture	Max 1
8	PH 5%	5.5 - 6.5

- CAS Number : 68201-46-7
- Synonyms : Coconut glycerides ethoxylated, Ethoxylated coco mono- and diglycerides

Application: PEG-7 glyceryl cocoate is a emulsifier, humectant,softener with a minimal negative effect on the foaming of the products in cosmetics and personal hygiene which is especially suitable for aqueous formulations and acts as a solvent for additives such as essences and oils.
