

Technical Data Sheet

Poly Ethylene Glycol 150 Distearate

Row	Parameter	Result
1	Appearance (25 °C)	Milky White Flake
2	Saponification Value (mgKOH/g)	20 - 32
3	Acid Value (mgKOH/g)	Max 10
4	Dioxane (ppm)	Max 10
5	Melting Point (°C)	52-58
6	Heavy Metals (ppm)	Max 10

CAS Number: 9005-08-7

Molecular Formula: C₁₉H₄₀O₄

Formula Weight: 332.5185

Application: Poly Ethylene Glycol 150 Distearate is a diethyl ester of polyethylene glycol with stearic acid and is a kind of macromolecule nonionic surfactants which is used as Emulsifying Agent and Viscosity Controlling Agent in Baby Shampoos, light Shampoos, liquid Soap, face washes, face Cleaners and Deodorants.
